SUMMARY

Full-stack developer and open-source maintainer specializing in AI-powered applications, LLM tooling, and scalable backend systems with production experience across SaaS, voice AI, and SRE platforms.

EXPERIENCE

OpenSRE (Maintainer)

April 2026 – October 2026

Tracer Cloud

6 months — Remote

- Shipped **140+ pull requests in six months** while maintaining OpenSRE, an open-source AI SRE platform for incident investigation and operations automation.
- Delivered a Discord gateway, proactive Slack notifications, documentation and CI improvements, and contributor tools including a public leaderboard dashboard.

Tscircuit (Open Source Contributor)

Dec 2025 - Feb 2026

Tscircuit

Open Source — Remote

- Contributed to TypeScript PCB tooling across **jscad-electronics**, **footprinter**, and **easyeda-converter** in the tscircuit ecosystem.
- Implemented component libraries, footprint features, and bug fixes improving developer experience for React-based electronics design.
- Sponsored by **tscircuit** for open-source contributions to the PCB design tooling ecosystem.

LiveKit Agents JS (Open Source Contributor)

Nov 2025

LiveKit

Open Source — Remote

- Fixed interruption-detection bug by refactoring word-count validation and adding **23+ unit tests**; merged PRs improving voice pipeline stability.
- Resolved **race-condition crashes** in STT/TTS pipelines across **OpenAI**, **Deepgram**, **ElevenLabs**, **Cartesia**, and **Neuphonic** plugins.

Adani Thermal Power Plant (Software Engineer Intern)

Jul 2025 – Sep 2025

Adani

3 months — Mumbai, India

- Built PlantOps Knowledge Engine, an on-premises LLM assistant deployed for **40+ staff**, reducing manual information searches by **60%**.
- Packaged and optimized models for edge deployment, decreasing average query response time by **45%** with **99.9% uptime** in a restricted network.

Devtonius (Full Stack Intern)

Jun 2024 – May 2025

Devtonius

1 year — Remote

- Built client-facing web applications using Next.js, React, and headless CMS platforms (Sanity, HyGraph), including portfolio and education consultancy sites.
- Delivered lead-generation platforms capturing **200+ leads/month** and improved page performance by **40%** through optimization and modern frontend practices.

PROJECTS

Ghost — Local-First Security Review CLI

- Built a developer-focused CLI that scans Python and JavaScript/TypeScript code for security risks and stores review evidence locally.
- Tests proposed repairs in isolated Git worktrees and requires approval before applying changes; supports an interactive REPL and offline static checks.

InternTrack

- Full-stack internship platform with RBAC (students, teachers, HR), deployed and actively used within the college.
- Implemented HR email-based attendance verification with JWT tokens, audit logs, analytics dashboards, and cron jobs.

Infinity Castle (VS Code Theme)

- Published a cozy dark VS Code theme on Open VSX with **500+ downloads** for an immersive, developer-friendly coding experience.
- Designed and maintained theme styling, packaging, and marketplace listing for ongoing user adoption.

SKILLS

Technical Skills: Java, C++, Python, JavaScript, TypeScript, React, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, Redis, Docker, AWS, Git, HTML/CSS, TailwindCSS

Soft Skills: Critical Thinking, Team Collaboration, Problem Solving

EDUCATION

Terna Engineering College

Navi Mumbai, Maharashtra

Bachelor of Engineering, Computer Engineering

2022 – 2026

P. G. Jr. College

Bordi, Maharashtra

Higher Secondary Certificate (HSC)

2020 – 2022
